

WALK 5K & RUN

Join us in support of Andi and all other children suffering from ataxia-telangiectasia (A-T). A-T is a rare neurodegenerative genetic disorder that impairs movement and coordination, weakens the immune system, and causes an increased risk for cancer. All proceeds will benefit the A-T Children's Project in their efforts to find a cure for A-T.

Thank you for your support!

Andi, age 4

**Sunday
October 8, 2023**

Duke Island Park
191 Old York Rd.
Bridgewater, NJ

6810 N. State Rd. 7, Suite 125, Coconut Creek, FL, 33073

atcp.org/andi

Ataxia-telangiectasia (A-T) is a genetic disease that causes loss of muscle control and balance, cancer, lung disease and immune system problems in children and young adults, shortening their lives. The nonprofit A-T Children's Project partners with academic and industry investigators worldwide - organizing and supporting innovative research, conferences, clinical teams, data platforms and biomarkers - to optimize disease management strategies, develop new treatments and find a cure.
