

PROMOTE MONTHLY GIVING

Monthly giving is POWERFUL. At the A-T Children's Project, we call our monthly giving community our Giving Circle. Our Giving Circle helps us plan out what research studies we can fund. Here's how you can help your friends and family have the **biggest impact!**

ADD AN EMAIL SIGNATURE

Start by downloading the below image at atcp.org/joinme.

Then, go into your email settings. Search "signature."

Paste the image into the signature section. Then, click the hyperlink button to hyperlink the image to our monthly donation page at atcp.org/givingcircle.

Save.

EXPLAIN RESEARCH

The research we are funding is truly cutting-edge. Visit atcp.org/news for the latest research updates including a gene therapy drug called an antisense oligonucleotide (ASO) and the discovery of a potential biomarker.

SEND A LETTER OR POST ON SOCIAL MEDIA

"As you may know, Julia was diagnosed with A-T, a rare, genetic disease, earlier this year. But we have hope! To support the research toward a cure, please consider becoming a monthly donor at atcp.org/givingcircle. It would mean the world to me and my family."

PROVIDE INFORMATION

Email fundraising@atcp.org and ask us to mail you some informational brochures. Hand them out next time you are talking about A-T with a friend and mention how becoming a monthly donor can help!

THANK YOU!
